It may only be distributed as a downloadable electronic book in Portable Document Format (PDF) with all the author's text, graphics, information, copyrights and links intact.

The video tutorials linked from within the Report may not be copied, distributed or transmitted in any form whatsoever or from any other location, other than the author's server.

The streaming Flash authoring software may be freely distributed.

All links contained within are valid and operational at the time of creation. While every attempt has been made to ensure the information presented here is correct, the contents herein are a reflection of the views of the author and are meant for educational and informational purposes only.

No guarantees whatsoever, be it fiduciary or in terms of any guaranteed results are made, and as always competent legal, accounting, tax and other professional consultation should be sought where needed.

# **Free Resale and Redistribution Rights to this Special Report**

**Congratulations!!**

You now own the reprint and redistribution rights to this Special Report.

This is a \$295.00 value but it's yours completely free!

By owning the reprint rights you can reprint, resell or redistribute this Special Report for any price (although I'd suggest a minimum price of \$9.95, so you can actually make a few bucks out of it) and **you keep 100% of the profits!**

Or, if you want, use the Special Report as a free bonus or premium and give it away. It's your choice.

The only restrictions are:

1. You cannot modify the Special Report in any way
2. You are not allowed to make copies of the video tutorials linked to in this Report and redistribute them- you must only **link** to them on my server

Once you've read this Special Report, you will know exactly how to create all the streaming Flash video tutorials you'll ever need, without ever having to whip out your credit card and spend \$300 on Camtasia Studio.

Enjoy!

Nick ☺

# My Surprise Gift to You

*“A surprise gift? For Me?”* Oh yes, indeedy!!!

Why? Because I want to keep our new relationship going – so I’m offering you this “ethical bribe” to allow me to keep in touch.

So if you’re willing to give me your email address, I’ll send you an extra special free gift (a \$37 value but in truth, worth a lot more!) – no strings attached.

If you don’t want to receive my emails any more (hopefully **never**), all you have to do is click the UNSUBSCRIBE link that’s at the bottom of every email I send out.

I know you already get tons of emails (not to mention all the spam) and you hate most of them. This won’t be true with what I send you.

You’ll get a series of great tutorials and information you can start using and profiting from immediately.

To get your free gift, go to:

To collect your free gift worth \$37, go to: <http://www.streamingvideosecrets.com/pdfreegift>

### About Nick “The Geek” Smith

Nick is one of the UK’s top “direct response” website designers and is responsible for creating dozens of websites that make their owners, \$thousands a month.

He is a fanatical believer in the “less is more” approach to web design. Unlike other designers who love to show off their skills by piling on unnecessary “bells and whistles” like slow-loading, Flash animations, Nick uses such technologies as little as possible, ensuring **his** client’s websites load lightning-fast and get the sales, rather than stroking egos.

In addition to his web design practice at <http://www.instantsupersites.com>, he consults privately with clients on all technical and marketing aspects of the Internet, focusing on automating the customer acquisition and ordering processes.

Nick is the author and publisher of a number of Special Reports and the soon-to-be-released: **“Instant Super Sites: How to Build a ‘Killer’ Direct Response Website That Sells!”**

In the rare moments when he’s able to relax and his wife Shirley manages to drag him kicking and screaming away from the computer, he likes cooking (but not the washing up), watching TV, going to the cinema and reading bedtime stories to his youngest daughter.

**A quick message from this Report's Sponsor:**

Thanks to this Special Report, you will know how to record your computer's desktop to create informative video tutorials and explosive video infoproducts. But what if you need to stream recordings from your webcam from your website? Well, you're in luck - a brand new service is now available that lets you produce **professional quality** recordings from your webcam, with a built in teleprompter so your speech is flawless, can optimize videos for broadband and modem users **and** stream them from your website in just minutes. [Click here for full details.](#)

## **How to Create Streaming Flash Video Tutorials And Products Just Like the Pros - Absolutely FREE!**

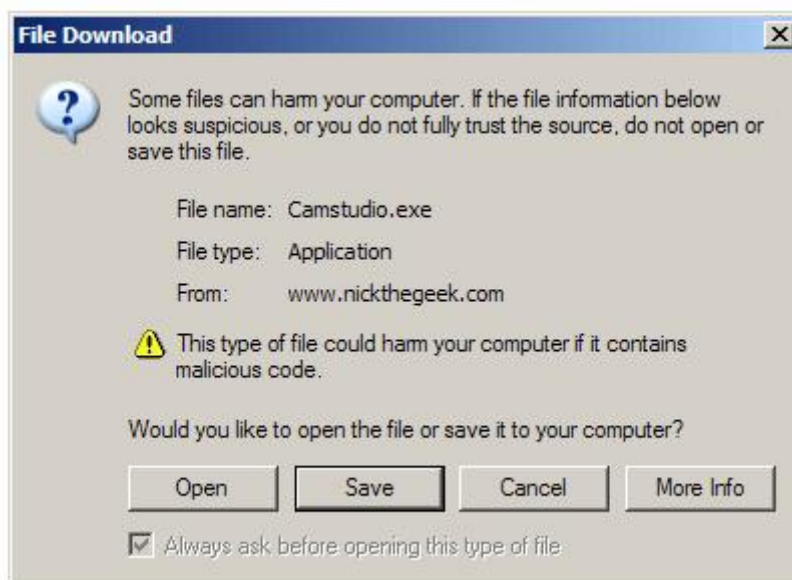

To watch the videos you'll need the Shockwave/Flash browser plug-in. You can download it free of charge from [here](#): (You must be connected to the Internet, before clicking the link)

Below you'll see download and playing links for each of the videos and software. To play any of the three videos, just click the appropriate link.

The video can be watched by Windows, Mac, Linux users and anyone else using an operating system capable of watching streaming Flash videos. However, the software demonstrated in the tutorials is for Windows users only.

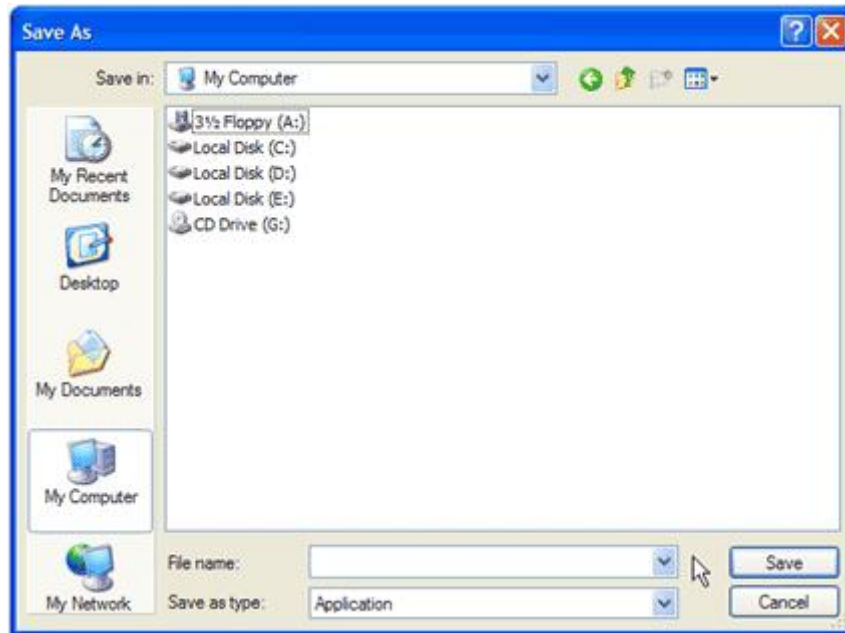

### **Download Instructions**

To save the desktop recording software to your computer, firstly click the appropriate link below. If the File Download dialog box appears, select Save.

To collect your free gift worth \$37, go to: <http://www.streamingvideosecrets.com/pdfreegift>

Next, a download screen will come up asking where you want to save the CamStudio installation file on your computer.

Browse to where you want to save the file and click the Save button in the bottom right hand corner. Double click the **Camstudio.exe** file you saved on your computer to begin the installation process. Simply follow the instructions you are given to complete the installation.

[Click here to watch Free Streaming Flash Videos Tutorial – Part 1](#)  
(4 min 26 sec)

[Click here to watch Free Streaming Flash Videos Tutorial – Part 2](#)  
(3 min 26 sec)

[Click here to watch Free Streaming Flash Videos Tutorial – Full Video](#)  
(7 min 52 sec)

[Click here to watch How to Edit Your Source Video – Full Video](#)  
(6 min 37 sec)

[Click here to download the software shown in the video: CamStudio 2.0](#)  
(1.00 MB)

There will be a short delay while the video files are preloaded. If you have a dialup Internet connection, there will be a longer delay than if you have a broadband or cable connection.

## Update

As I'm sure you'll agree, CamStudio is a fantastic little program that can produce incredible video tutorials and products you can sell for \$\$\$ without having to shell out \$300 of your "hard earned" on Camtasia Studio.

But I've got even better news for you - I've just found a way to get dramatically better results using CamStudio! Here's how ... incredibly, an older version of Camtasia (Version 3) was on the cover CD of the June 2004 edition of Personal Computer World in the UK.

Why bother with this when you have CamStudio, especially since this older version of Camtasia can't create streaming Flash videos?

Well, Camtasia comes with its own TSCC video compression authoring system which it uses to create videos that are much smaller and have a higher quality than any other compression format.

However, once Camtasia and the TSCC authoring software are installed on your system, **CamStudio** can also access it to create better videos, which can then be imported into the SWF Producer so you end up with higher quality streaming Flash files.

**NOTE:** If you try to create a Flash file in SWF Producer from a video created in Camtasia 3 using the TSCC codec, SWF Producer will crash. You **must** create the video in CamStudio using the TSCC codec.

To order a back issue of the magazine, telephone: +44 1858 438 883. Price is £5 (UK) and £8/\$16 (Overseas). *Shipping might be extra.*

I hope you find this useful.

## Thanks for reading and watching ...

Well, as Bugs Bunny would say, "That's all folks!" Yep – that's everything you need to know to start recording your own video tutorials and products.

Before I go, I'd just like to say thanks to a few people: Firstly, I'd like to say thanks to my wife Shirley and my daughters Jemma and Deanna for having the patience of angels when it comes to me and my business. ☺

I'd like to thank all the clients I've worked with – I've loved every minute of it and I look forward to working with you all in the future.

I'd also like to say thanks to my friend, client and mentor, [Yanik Silver](#) for all the help and inspiration he's given me during the last 4 years. He's taught me more about copywriting than anyone else I've ever read, so thanks a lot Yanik!

Thirdly, I owe a huge debt of thanks to **Ken Evoy** for creating one of the most important and entertaining books I've read on Internet Marketing: [Make Your Site Sell](#). It completely blew my mind after I read it, so much so I threw away every other book I had on web design and marketing. So Ken, thank you for opening my eyes! ☺
